

Summer Newsletter

April 2017

Dear _____

I am really looking forward to this Summer Term. It is a long term and we have two exciting topics to learn about!

My first topic is 'At the Farm'. I will be learning all about all the animals that live on a farm, as well as finding out what farms produce—our outside role play area is a farm to help me with this! At the end of this half term we will be lucky enough to have a farm visiting us.

Our second topic is 'At the Beach'. In this topic we will be learning about the creatures that live in the sea as well as finding out about the properties of sand and water!

Through our topics we are going to be learning many things—for example—in our Understanding of the World Sessions we will be learning how to plan, carry out and evaluate our own investigations and model making. In Creative development we are going to be taking part in some 3D art as well as using a wide range of instruments in our music!

We will be having a school trip in May to the Rare Breeds Centre details will follow shortly.
