

September 2017

To My Family,

I am really looking forward to my first term at school, here are a few things that I will be doing!

Each week I will looking at new letters and learning how to sound them out and form them carefully. I will be thinking of objects which begin with these sounds.

I have two topics this term, "All about me" and "Houses and Homes". I shall be doing lots of interesting things like cooking and making things to help me learn more about these topics.

I am going to talk about how to keep healthy, learn about our bodies and use our senses to explore the world around us.

I will also look at where we live and explore Lympne. We look closely at different types of houses around the world.

If I have any books or materials at home that could help with my topics, perhaps I could bring them into school this term.

I will be having PE on a Thursday so could I have any long hair tied up please and earrings out or covered thank you!

Love from
